ABOUT ME

A motivated third-year Information Technology undergraduate at the Sri Lanka Institute of Information Technology (SLIIT) with strong expertise in software development and mobile app design. Proficient in Kotlin, Android Studio, and the MERN stack, springboot I have hands-on experience building web and mobile applications through individual and group projects. My technical skills include programming in C, C++, Python, Java, and JavaScript, along with database management using MySQL and MongoDB. Additionally, I am skilled in version control (Git, GitHub) and have demonstrated project management, teamwork, and leadership abilities. Passionate about applying technical knowledge to solve real-world challenges, I am committed to continuous learning and professional growth in the field of IT.
